Miscellaneous.

HEAR YE! HEAR YE! HEAR YE!
THE subscriber having taken the agency
for the sale of Bardett and Bardett's
Grecian Counting Oil Polish, is now pre-
pared to furnish the article to store keepers
at Manufacturers' prices.
This article is composed of means for oil
and Gutta Percha, acting as a preserver of
leather as well as polish. An article of this
kind has long been needed, as every one
knows that common blacking will not polish
or oil over grease.
The attention of lively stable keepers, and
those having carriages and harnesses, is in-
vited to this article, as it is unsurpassed for
the purpose of cleaning carriage tops, harness-
es, &c. It is put up in large size boxes, con-
venient for the use of lively stable keepers,
and also smaller sizes for the use of every-
body who wish to purchase the best blacking
in the market.

SOLOMON T. HUBBARD,
Wholesale & Retail agent,

UNDERTAKERS.
COFFINS and other funeral apparatuses.—The subscribers have on hand
and will make at short notice coffins of every
description of wood and finish; also caskets,
trappings, &c., and if desired they will super-
intend funeral arrangements and furnish
all articles connected with and used on these
mournful occasions.
They have also a method of preserving a
corpse for any desirable length of time, until
friends and relatives can arrive from Europe
or distant parts of our own country.
If required they can give the best of refer-
ences as to their mode of attending to matters
of this kind.
Orders for the whole or part of these ar-
rangements are solicited, and will be prompt-
ly executed, with the utmost regard for the
feelings of those concerned.
J. L. & O. A. HAZARD.

NEW MAP OF NEWPORT.—The sub-
scriber has now nearly ready for publica-
tion an entirely new map of Newport Town-
ship, including a large part of Middletown.
Showing all the Island South of Coddington
Cove, and from Castle Hill on the West, to
Sachuest Point on the East. The whole made
from recent surveys, hitherto unpublished.
It will be the only topographical map of the
Township yet made, and is of sufficient size
to allow the position of every house to be in-
dicated, and the names given of all the land
holders without the limits of the City.
The copy prepared for engraving, is now
ready for inspection and corrections, as it is
my wish to make it much nearer a record than
any yet issued.
The price \$5. The size about 36x44 inches.
Subscriptions will be received at 124 Thames
street by
CHAS. E. HAMMETT JR.

LADIES' DELIGHT.
RELIEF COME AT LAST.
J. WISNER'S Washing Machine, Pa-
tented Sept. 26th, 1854, is a large tub
with zinc lined on the bottom, also on the
inside of the rubber. It stands on a stand,
and weighs about 25 lbs.; is simple and handy
and has been thoroughly examined and tried
by thousands at the West within the past
year, who pronounce it to be the best labor
saver ever offered to the public. It has been
tested sufficiently long to prove that when
ever it has been used properly, it will tell a
better story for itself than I can communicate.
Give it a trial, and you will be entirely satis-
fied of its superior merit.
A. C. GREENE, Agent,
No. 19 Church-st., Newport, R. I.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Wash-
ington, under the Act of 1837.)
No. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards
of twenty years, continuing to secure Pa-
tents in the United States, also in Great
Britain, France and other foreign countries.
Caveats, Specifications, Bonds, Assignments and
all Papers or Drawings for Patents, executed on
liberal terms, and with despatch. Researches
made into American or Foreign works, to
determine the validity or utility of Patents or
Inventions—and legal or other advice ren-
dered in all matters touching the same. Cop-
ies of the claims of any Patent furnished by
remitting One Dollar. Assignments recorded
in Washington.

This Agency is not only the largest in New
England, but through it inventors have ad-
vantages for securing patents, transcending
the possibilities of inventions, unassisted by
if not immeasurably superior to any which can
be offered them elsewhere. The testimonials
below give proof that none is more suc-
cessful at the PATENT OFFICE
AND ABILITY, he would add that he has
abundant reason to believe, and can prove
that no other office of the kind are the
charges for professional services so moderate.
The immense practice of the subscriber dur-
ing twenty years past has enabled him to ac-
cumulate a vast collection of specifications and
official decisions relative to patents. These
besides his extensive library of legal and me-
chanical works, and full accounts of patents
granted in the United States and Europe,
render him able, beyond question, to offer
superior facilities for obtaining patents.
All necessity of a journey to Washington
to procure a patent, and the usual great delay
there are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most suc-
cessful and successful practitioners with whom
I have had official intercourse."
CHAS. NASON, Com. Issuance of Patents.
"I have no hesitation in assuring inventors
that they cannot employ a person more com-
petent and trustworthy, and more capable of
putting their applications in a form to secure
for them an early and successful consideration
at the Patent Office."
RUD. NOBBERG, Com. Issuance of Patents.
Late Com. Issuance of Patents.
Boston, February 8, 1885.

Mr. R. P. Eddy is made for me THIR-
TEEN applications, on all but one of which
patents have been granted, and that one is
now pending. Such unmistakable proof
of great talent and ability on his part leads me
to recommend all inventors to apply to him
to procure their patents, as they may be sure
of having the most faithful attention, be-
stowed on their cases, and all satisfactory re-
sults.

From Sept. 17th, 1857, to June 17th, 1858,
the subscriber, in pursuance of his large practice,
made, on twelve rejected applications, SIX-
TEEN APPEALS, EVERY ONE of which
was decided in his favor, by the Commis-
sioner of Patents.

After explanations by the chair, (who stated that while he favored the new boundary project, he suggested the enlargement of the committee that he might accommodate two gentlemen from Newport Co. who desired place on it,) Mr. Peck, Mr. Smith, of Cumberland, (who preferred a committee of the whole,) Mr. Eames, (who favored a reconsideration and an enlargement of the Committee,) Mr. Van Zandt (who stated why he requested of the Speaker an appointment on the Committee before its number was fixed, yesterday,) and Mr. Manchester, of Fall River, (who now disclaimed any desire to be upon the Committee,) the motion for reconsideration was withdrawn by the mover.

Upon motion of Mr. Blake, the majority report of the Special Committee on the colored school question, made at the last May session, was read and made the special order of the day for Tuesday next at 11 o'clock.

Mr. Van Zandt presented the petition of Peter Cook and thirty-three other citizens of the town of Fall River, against any change of boundary line; referred to the special committee on the subject.

Mr. Manchester, of Fall River presented the petition of John Durfee and two hundred and eight other citizens of Fall River; and of Israel Buffington and forty other non-residents but land owners in Fall River, for a change of boundary line; referred to the same committee.

Mr. Brownell of Little Compton, presented the remonstrance of W. G. Borden and forty-one others, against the proposed change; referred to the same committee.

The Chair announced as the members of the Special Committee on the boundary line, Messrs. P. W. Stevens, Edward P. Knowles, L. M. E. Stone, A. F. Dixon, Stephen Harris and H. H. Luther.

A resolution (from the Senate) for furnishing the American Association with Rhode Island public documents, was referred to the Committee on Education.

Mr. Northup introduced a resolution directing the Special Committee on the House of Correction to inquire what right the State has in land near the State Prison suitable for the location of such an institution, and if the State has no right in such location, to ascertain upon what terms such can be obtained. The resolution was adopted.

THURSDAY MORNING, JAN. 20, 1880.

Literary.

THE ATLANTIC MONTHLY for February is already before us with its rich treat for the mind. It seems to have lost nothing by a change of publishers, and is received throughout the country with the greatest marks of approval and appreciation. The "Professor's Story" attracts unusual attention from the press, whose comments are generally complimentary to its accomplished author. The "Atlantic" is for sale at the book and news stores.

GODEY'S LADIES' BOOK for February is a beautiful number. Its fashion plates, engravings and receipts will make it, as ever, a great favorite with the ladies, to say nothing of the interesting stories and useful facts which swarm its pages.

THE THIRTEEN ALMANAC AND POLITICAL REGISTER for 1880 we have already noticed extensively. It should be in the hands of every one who wishes to know and understand, with little study, the political position of affairs "in our country." It is for sale by news agents generally.

THE NEW YORK LEDGER, by the immortal "Bonner," for Jan. 28, has made its appearance. It contains its usual supply of stories, essays, poetry, &c., and is well sustained. All the periodical dealers in the country have it for sale. Tilley is the agent for Newport.

THE NEW ENGLAND FARMER has done a new deed for the new year, which shows the good taste and judgment of its enterprising publishers, Messrs. Nourse, Eaton & Tolman, of Boston. The Farmer has long sustained a position as the first Agricultural paper of New England, and is well deserving of it.

THE WOOLSOCKET PATRIOT and K. I. State Register, published in Woonsocket by S. S. Foss, is decidedly the neatest specimen of the Rhode Island weeklies; it is large, and contains every week, a vast amount of interesting reading and news.

THE AMERICAN STOCK JOURNAL.—We have the first number of this periodical, for 1880. Its contents commend it to the attention of every farmer and stock-grower, as it is devoted to the improvement of domestic animals. It is published monthly at 25 Park Row, New York, at one dollar per year; and each number contains 32 large octavo pages, handsomely illustrated. The engravings of the improved Kentucky sheep and other animals, in the number before us, are well worth the subscription price.

THE COUNTRY GENTLEMAN, from the press of Luther Tucker & Son, of Albany, appears this year in a new dress. We have already expressed our opinion of this

excellent work; as a journal for "the Farm, the Garden, and the Fireside," it cannot be excelled. Its subscription price is \$2.00 when paid in advance. See advertisement.

LOCAL ITEMS.

NEWPORT ARTILLERY.—This ancient and favorite institution of our city, has decided to make a parade on the 22d of February, which, by a recent law has become a holiday. At that time it is expected that their new overcoats will be ready, and will be for the first time used on parade. Such of our readers as have not seen this new feature in this Company's uniform, we think will, when they do see it, be highly pleased therewith. It is made of thick, serviceable, blue cloth, ornamented with the gilt buttons of the Company, and the United States button, with a cape, the body of the coat coming down below the knee.

The enterprise and public spirit manifested by this "ancient and honorable" Company, is excellent, and should enlist in their behalf, the sympathy and support of our community. We confess ourselves not a little desirous of seeing the effect of the coat upon the first parade. We hope the day will be fine, and all things pass off satisfactorily.

First Fire! First!—Tuesday night, about half past ten o'clock, the city was aroused and fire department called out, by a cry of fire. The companies from the north, south and east, (we have no west,) all met together in Thames Street, a short distance below the City Hall, and wasn't there an exciting time? They soon unraveled the snarl, and were off down south. Not finding the fire, they very quietly retired to their different houses, and the citizens to their beds, to dream of horrors untold. Is there no way of avoiding this useless labor and expense?

We ask the attention of our readers to the advertisement of the Philharmonic Society. They offer to furnish for our citizens, three good entertainments, for almost nothing. We are glad to learn that the enterprise is meeting with a generous response already, among the different organizations and citizens.

THIRTY-SIXTH CONGRESS.

WASHINGTON, Jan. 23. SENATE.

After the adoption of a resolution, offered by Mr. Hale, calling for the names and salaries of the persons employed in the Treasury Department whose appointments have not been confirmed in the Senate, Mr. Douglass's resolution directing a bill to be framed to protect States of the Union from external invasion, was taken up, and Mr. Douglass proceeded to sustain the resolution, holding that the Constitution guaranteed to each State a Republican form of Government and protection from invasion—the President having replied to Gov. Wise that he found no power in the Constitution for action on his part. He wished to raise the question whether Congress should not, under the authority of the Constitution, pass whatever law was necessary. He charged the Republican party with the responsibility of the John Brown invasion. Mr. Fessenden, Rep. of Me., replied in defense of that party, and Mr. Douglass retorted, when the Senate adjourned.

HOUSE.

Mr. Barksdale (Dum., Miss.) referred to the condition of the House, now maintained for seven weeks, and declared, that rather than have Mr. Sherman elected, discord might reign there forever. He then spoke at length on the slavery question. He also declared that he would resist the inauguration of a Republican President. After Mr. B. had concluded a somewhat fierce discussion speech, Mr. Corwin (Rep., Ohio) took the floor, and proceeded in a free-and-easy style, to show why the House should go into a ballot for Speaker, as it was only by voting that the House was ever to become organized. Adjourned.

CRAZY VISITORS AT THE CAPITOL.

The Washington Star says, that since the beginning of the session of Congress the police of the Capitol have had considerable trouble with disorderly persons. America Barnham, the crazy would-be-speaker, bothered them for a season; and a powerful man, who sports a big club, has lately been about the Capitol "trying to induce members to organize." But he says "Congress is stubborn and self-willed, they are perverse, joined to their idols; and the Lord and himself have determined to let them alone, and turn them over to the devil." Another fellow walked from New York to Washington, except about ten miles "to organize the House;" but instead was arrested, and after promising to suspend his patriotic efforts was let go. Yesterday, a German, who came from California, and claimed to be the Senator elect, was taken from the House for attempting to take part in the proceedings. He had presented his credentials at the Senate door, but upon their examination by the doorkeeper, they proved to be nothing but old express bills by the Wells, Fargo & Co. line, and he could not pass. His conduct was such that he was placed in the cell, and afterwards sent to the work-house as a vagrant. Tuesday, an employe in the House introduced a person of doubtful character, a female, into the ladies' gallery by conducting her through the committee rooms. The fact of her presence there was reported to Capt. Dunnington, and she was forthwith invited to leave. The employe was dismissed instantly. Friday, some half dozen disorderly applauders were taken from the gallery for indulging in their pot-house expressions of approbation.

At the annual prayer meeting in Boston for the conversion of the world, the Rev. Dr. Anderson, of the American Board, stated that the Board is now \$130,000 in arrears, and that the receipts must be one-third more this year than last, or the missions must be curtailed.

The Boston Journal says that the payment of wages—\$20,000—to the operatives at the Pomberton Mills, at Lawrence, was commenced on Wednesday, and adds:—"The money due to those who were killed will be paid to those next of kin. Those having homes in other parts of the country are in most instances leaving the city. Many of those who came forward to obtain their wages exhibited flesh wounds and contusions received in their escape from the ruins. Parents came to collect the last earnings of those upon whom they had learned to lean in their old age, and children to receive the hard earned wages of parents upon whom they have till now depended for support. The widow, in the subtle garb of grief, accepted the balance due her lost companion, and the last earthly accounts for those now settled by their relatives or friends.

The Oswego Times relates an extreme case of destitution and misery. A family named Roche, lived in a house near the village of Fulton, which was so low on the ground as to allow the water to half cover the floor of the one miserable room in it, besides being half hidden by mud and filth, without the appearance of one single comfort in any place. The wife and mother was ill, and a raving maniac, and suffering from other diseases. About her were four children as ill clad and as filthy as herself, and by the stove were lying two male infants, who had died for want of care, one of whom was black with mortification, having died four days before. They were in perfect nudity, and doubtless were laid where they died, when they were born. The sight was sickening and awful to look upon, and is quite indescribable.

A petition was presented a few days ago in the Senate of Minnesota, signed by 113 of the principal business men and citizens of S. Paul, praying the Legislature to limit the per centage of taxation that may be imposed for city and county purposes, in Ramsey county. This is an important matter. The petition represents that the whole tax imposed amounts to near three-and-a-half per cent. a year—an amount so excessive that tax-payers find it impossible to pay. In numerous instances the taxes amount to more than the rent even of improved property.

The Johnstown (Pa.) Echo says that a most singular and unaccountable explosion occurred in that place Saturday. The purifying house of the gas works was blown to smithereens, the cause of which cannot be satisfactorily ascertained. The house was shivered to atoms; there being but a small portion of one of the walls left standing. The cupola was blown forty or fifty feet into the air, and fell between the purifying and retort houses, uninjured. Luckily nothing about the gas works was injured.

The amount of taxable property in Kansas as shown by the report of the Territorial Auditor, is \$15,000,000. The indebtedness of the Territory amounts to \$26,000.

There are about eight thousand Justices of the Peace in commission in the State of Massachusetts.

FOUSSEL'S PABU UM VITE.

THE GREAT FRENCH RENOVATING PROPERTY, an extraordinary cure for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and ALL PULMONARY DISEASES.
This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and its most astonishing curative properties; it being the only remedy known that will arrest the development of Tubercles in the Lungs, or restore the vital functions of the pulmonary organs to their normal condition. Its invaluable properties have obtained for it the highest commendations and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.
This preparation, by chemical analysis, was proved to be free from opium or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are efficiently used in allaying pulmonary disease; but the service by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer,
16 Boylston Street, Boston, Dec. 19, 1877.
Testimonial from the Assistant Superintendent of Health:

Boston, Oct. 6, 1879.
Sir:—It affords me great pleasure in recommending to those troubled with Pulmonary Complaints the use of Fossel's Pabum Vite, for several colds and its effect was magical. For Coughs and Colds it possesses qualities of great merit, and I would most cheerfully recommend its use to those troubled with the above complaints, as common to our climate.

(Signed) DANIEL B. CURTIS.

To F. J. LAFORME, Room 12, City Hall.

F. J. LAFORME, Esq.,

Dear Sir:—This may certify that I have used Fossel's Pabum Vite, and I consider it the best article that I have ever used for pulmonary complaints. My wife has used it for several colds, and its effect was magical. I have no objection to your referring in any way to me that you deem expedient.

I have given the above named a fair trial, and with confidence advise all that are afflicted with colds or pulmonary complaints to try it.
